HABIA | HEW-KABEL & ROBOTIC SOLUTIONS

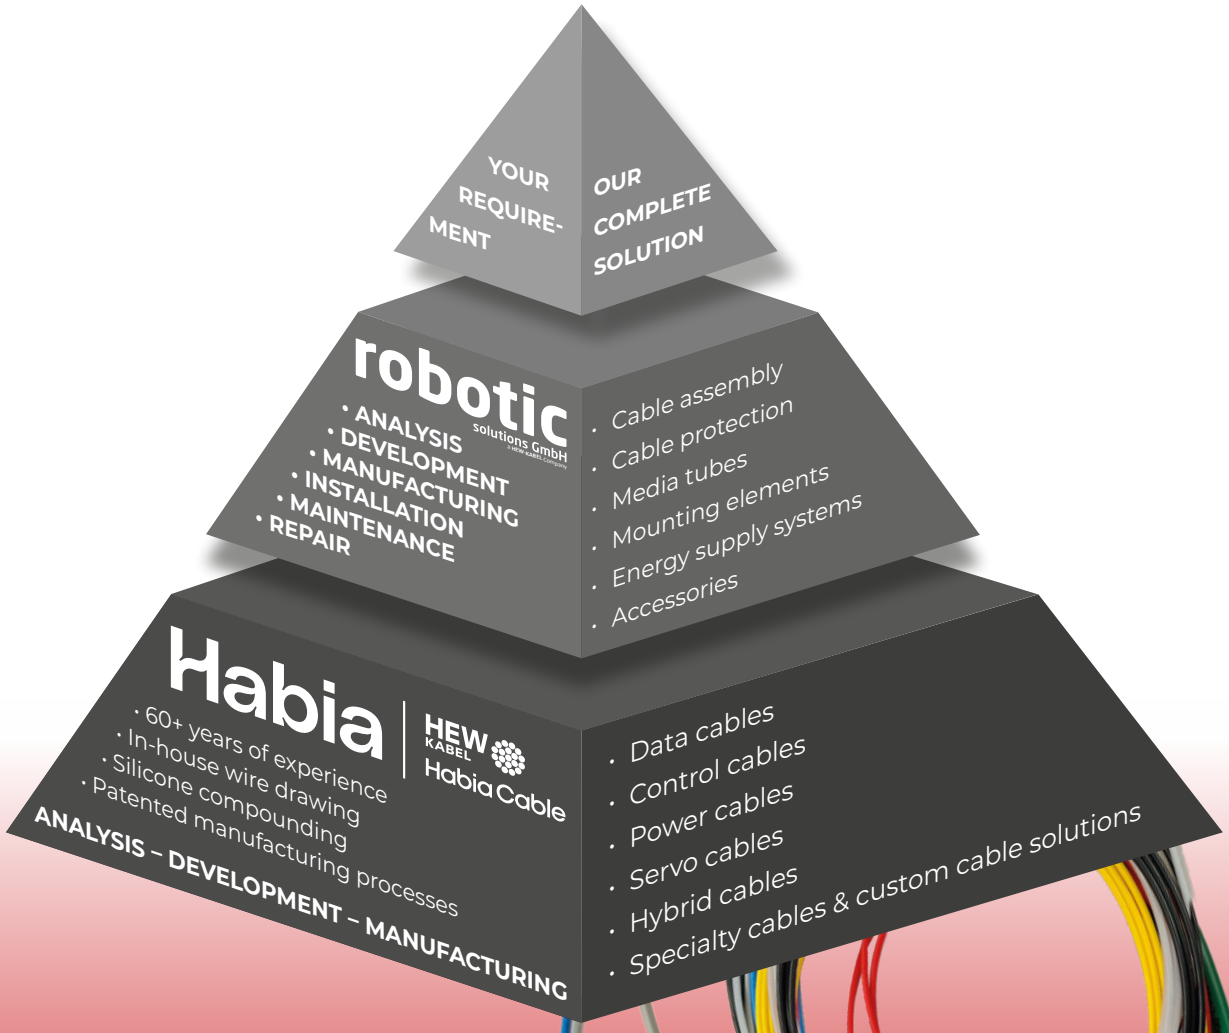

COMPLETE SOLUTIONS FROM A SINGLE SOURCE

Connecting the technologies of tomorrow

Sometimes the best solutions are created when the right expertise comes together. That is exactly the story of **HEW-KABEL** and the entire **Habia Group**.

Habia was formed through the merger of two established specialists in the cable industry: HEW-KABEL GmbH in Wipperfürth, Germany, and Habia Cable, headquartered in Stockholm, Sweden. Both companies look back on decades of success in the development and manufacture of high-quality specialty cables. Since their merger in 2022, they have combined their experience, technical expertise, and innovative strength under a single corporate brand.

Through **Robotic Solutions GmbH**, an integral part of the Habia Group, we go one step further by processing your cables into fully assembled, ready-to-install complete solutions.
